Dive into Pumice

2024
ReFresh

Inspired by Mesmerizing Beauty

Pumice's refreshed color palette brings forth a spectrum of colors that evoke the wonders of underwater exploration while its performance stands up to anything Mother Nature has in store.

Let the Ocean's Essence Inspire Your Next Design

Embark on an underwater adventure. Whether you're drawn to beige, soft yellow, coral, pink, or nautical blue, this collection now offers a palette that speaks to the explorer in you.

Pumice strikes a harmonious balance, offering a timeless aesthetic, versatile palette, and durability that transcends various markets with ease. It can effortlessly complement our other outdoor collections and coordinate seamlessly with other textiles such as wovens.

Dusk Green

497-4372

Dusty Olive

497-4373

Pewter Cast

497-5394

Blue Ice

497-2818

Coral Glow

497-6601

Aztec Clay

497-8280

Summer Melon

497-8279

Sunbeam

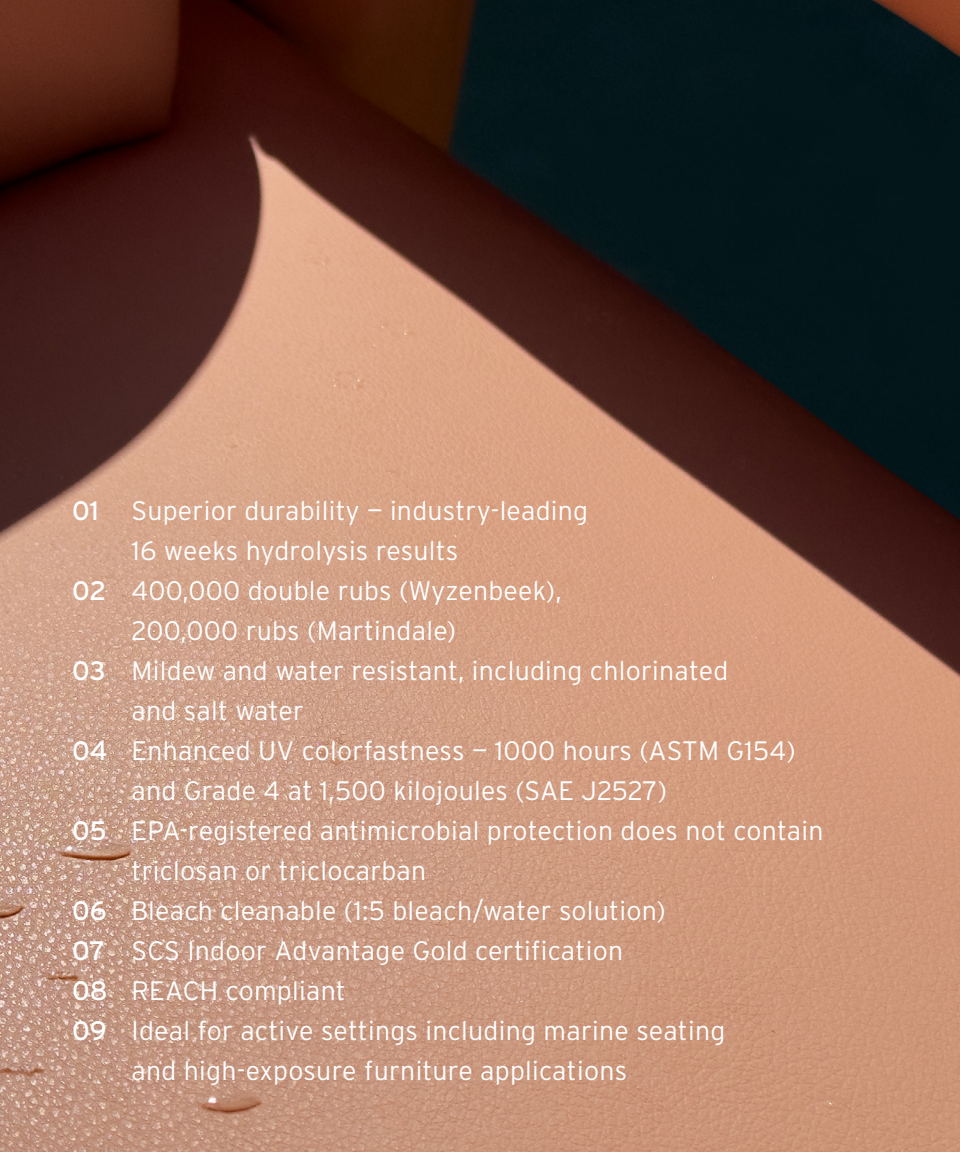

497-5203

Designed for the Elements

Crafted with durability and resilience in mind, Pumice is engineered to withstand the elements. From relentless sun exposure to sudden rain showers, this collection ensures that your outdoor furniture remains pristine, no matter the conditions.

Inherent EPA-registered anti-mildew, antimicrobial, and antibacterial agents prolong the life of your designs while colorfastness to sunlight, perspiration, chlorine, and seawater prevents fading. These powerful performance attributes, combined with the fabric's understated textural surface make Pumice ideal for active settings.

- 
- 01 Superior durability – industry-leading
16 weeks hydrolysis results
 - 02 400,000 double rubs (Wyzenbeek),
200,000 rubs (Martindale)
