Solutions —

Breathable Comfort — Engineered with a proprietary ventilation system that enhances softness and promotes air circulation for the highest level of comfort.

Antimicrobial — Features an EPA-registered antimicrobial agent that inhibits the growth of bacteria, while providing additional deterioration protection to the surface.

Outdoor Living — Designed to defend against mildew, bacteria, and other microbes, these durable materials resist water and withstand fading to provide lasting defense, no matter the season or forecast.

Acoustics — Designed with acoustically transparent properties to absorb unwanted noise and create a well-balanced space.

Ink & Stain Resistant — Trusted to resist stains like ballpoint pen, red wine and denim dyes, our inherent technology provides the ultimate defense.

Responsible Innovation — Suitable for healthy interiors and engineered for the future, these materials incorporate sustainably conscious ingredients or processes that inspire creators to dream bigger.
