740	Lino	12.5	200,000 DR				10 weeks	
744	Montage	12.5	200,000 DR				10 weeks	

All styles are 54" in width, approx. 1.0 mm in thickness

\*Residential Outdoor only

All collections, except the Uf Select offerings,  
are SCS Indoor Advantage Gold Certified.

# Problems We Solve

---

## Functional

**Acoustics** — Designed with acoustically transparent properties to absorb unwanted noise and create a well-balanced space when paired with Novawall acoustical wall systems.

**Breathable Comfort** — Engineered with a proprietary ventilation system that enhances softness and promotes air circulation for the highest level of comfort.

**Outdoor Living** — Designed to defend against mildew, bacteria, and other microbes, these durable materials resist water and withstand fading to provide lasting defense, no matter the season or forecast.

## Environmental

**Biobased Ingredients** — Supporting our sustainability goals, these materials incorporate wood pulp and corn-derived resin which reduce our dependence on finite resources.

**Recycled Bottles & Renewable Fibers** — These materials combine rapidly renewable fibers from certified forests with an estimated 8.3 recycled plastic bottles per yard.

**Renewable Fibers** — Manufactured with environmental impact in mind, these materials' backcloths contain inputs sourced from non-endangered, certified, sustainably managed forests.

# Problems We Solve

---

## Functional

**Breathable Comfort** — Engineered with a proprietary ventilation system that enhances softness and promotes air circulation for the highest level of comfort.

**Ink & Stain Resistant** — Trusted to resist stains like ballpoint pen, red wine, and denim dyes, our inherent technology provides the ultimate defense.

**Outdoor Living** — Designed to defend against mildew, bacteria, and other microbes, these durable materials resist water and withstand fading to provide lasting defense, no matter the season or forecast.

## Environmental

**Biobased Ingredients** — Supporting our sustainability goals, these materials incorporate wood pulp and corn-derived resin which reduce our dependence on finite resources.

**Recycled Bottles & Renewable Fibers** — These materials combine rapidly renewable fibers from certified forests with an estimated 9 recycled plastic bottles per yard.

**Renewable Fibers** — Manufactured with environmental impact in mind, these materials' backcloths contain inputs sourced from non-endangered, certified, sustainably managed forests.
