

At Ultrafabrics, we see performance fabrics differently. Based on state-of-the-art engineering, we design intelligent, next-generation materials that combine high-performing functionality, comfort, and sustainable innovation.

Available in an extensive range of stylish colors and textures to match any interior design scheme, Ultrafabrics offer enhanced durability and ease of care to withstand regular cleaning and disinfection protocols, maintaining a pristine appearance for years to come.

Manufactured using premium ingredients, our innovative construction allows for high moisture transfer, providing body climate regulation, and ensuring a consistently comfortable seating experience.

- Industry-leading hydrolysis performance for optimal durability
- Resistant to fluids and moisture
- Bleach-cleanable and inherently stain resistant
- Skin-friendly, odorless, and non-allergenic
- Can withstand commonly used cleaners, disinfectants, and frequent cleanings
- SCS Indoor Advantage Gold certified and REACH compliant
